Professional Summary

Results-driven Full-Stack .NET Developer with 2+ years of experience building modern, scalable web applications using ASP.NET Core, Web API, Angular, and SQL Server. Skilled in designing RESTful APIs, developing interactive and responsive front-end interfaces, and integrating complex backend systems with clean, maintainable code. Adept at delivering high-quality, user-focused solutions that enhance operational efficiency and align with business goals.

Technical Skills

Back-End:

- C#, ASP.NET Core, .NET Framework
- Web API (RESTful API), Entity Framework Core
- SQL Server / T-SQL

Front-End:

- Angular (TypeScript)
- HTML5, CSS3, JavaScript
- Bootstrap, Responsive Design

Tools & Technologies:

- Visual Studio, VS Code
- Git, GitHub
- Postman, Swagger
- Agile / Scrum

Professional Experience

Freelance Full-Stack Developer

Jan 2023 – Present | Remote

Key Projects & Responsibilities:

- Developed end-to-end solutions using ASP.NET Core Web API for backend services and Angular for interactive front-end interfaces.
- Delivered fully integrated business applications with secure authentication, clean architecture, and optimized performance.
- Collaborated with clients to gather requirements and translate them into technical specifications and deliverables.

Notable Projects:

- Clinic Management System
- Library Management System
- Car Rental Management System
- Medical Laboratory Management System

Technologies: ASP.NET Core, Angular, Web API, Entity Framework Core, SQL Server, Git.

Projects Portfolio

Clinic Management System

- Technologies: ASP.NET Core, Angular, SQL Server
- Description: A complete solution for clinic operations with role-based access, patient management, billing, reporting, and appointment scheduling.

Library Management System

- Technologies: ASP.NET Core, Angular, SQL Server
- Description: Streamlined library operations for catalog management, borrowing system, and reporting dashboard.

Car Rental Management System

- Technologies: ASP.NET Core, Angular, SQL Server
- Description: Automated vehicle management, booking, and invoicing system for rental agencies.

Medical Laboratory Management System

- Technologies: ASP.NET Core, Angular, SQL Server
- Description: Managed patient records, automated reporting, inventory, and integrated doctor portals.

Education

Bachelor's in Information Technology

Al-Razi University, Yemen

Certifications & Courses

- TOEFL IBT & PBT Certified
- Desktop Application Development (C#.NET)
- ASP.NET Core
- Angular
- SQL Server
- C# Programming

Soft Skills

Problem-Solving | Team Collaboration | Critical Thinking | Attention to Detail |
Communication | Fast Learning
